

April 1, 2002

Utah Division of Water Rights
Lee H. Sim

Dear Sir:

As a Meadowville water user and due to the current drought conditions I am requesting that the May 1 water use date be moved ahead to April 1. This would be so that we might utilize water that may come from snow pack in the early runoff. The realization being that the early water may be all that we will receive this season.

Sincerely,

Linda L. Willis
